Craig,
I was getting ready today to write you an email regarding my dismay that the Cambridge City Council was taking up a resolution inviting a boycott of HP because of business done with israel sponsored by an organization that is part of the BDS movement that is, in the words of it's leaders, dedicated to Israel's destruction. I hear today that this resolution has been postponed.

I am pleased to hear this and I thank you and your fellow Counselors for examining the true origins of this resolution more closely.

I certainly hope the City Council will follow the lead of multiple progressive leaders around the country including Barack Obama, Bernie Sanders, Keith Ellison, Cory Booker, Elizabeth Warren and the governors of all 50 states in opposing the tactics of the BDS movement. I am not a blind supporter of Israel, I believe in a 2 state solution. But I do not believe in a hateful economic and cultural war - it is against what we in Cambridge stand for.

Thank you,

Pippa (Eliza) Shulman
